LeTS Go

Language e Teacher Services

Introduction

The LeTS Go project has been financed by the European Commission in the framework of the Lifelong Learning Programme (Leonardo - Transfer of Innovation). The project is promoted by ISIS Leonardo Da Vinci (IT) and coordinated by Pixel Associazione (IT) in cooperation with partners from Germany, Italy, Poland, Romania and Spain.

Context

The knowledge of the foreign languages is a key element for a good employability. New Technologies can make the language learning process more user friendly and enjoyable. At the same time New Technologies have changed training methodologies, introducing elements of innovation that have redrawn the role of teachers and trainers.

Target Groups

The project is addressed to:

- Language teachers
- Language trainers willing to update their teaching skills.

Objective

The main objectives of the LeTS GO project is to enable language trainers and teachers to:

- choose quality language teaching products identifying those that best meet specific educational needs.
- use the products available either as an alternative or as integration of traditional methodologies.
- create educational and training products that exploit the potential of new technologies.

Project Activities

The project activities are:

- Upgrade and expansion of products and services available on the LeTS portal
- Organisation of training courses for teachers and trainers on the application of e-learning in languages teaching
- Creation of e-learning based language training modules
- Evaluation of the LeTS portal
- Exchange of experiences, competences and material for language learning

Certification

All the participants that will attend the workshops will receive a certificate of attendance.

The participation in the project is free of charge.
